THIS WEEK'S TIP: 'Socks are the most requested item by homeless shelters'

Socks are rarely donated as we wear through them and wouldn't donate old smelly socks with holes - unlike old coats, coffee or money. Leading to lots of potential foot issues for the people most in need.

Stand4Socks knew that they could do something to help this problem. So they created a befitting sock for homeless people. As they are on their feet and spend a lot of time outdoors, we made sure that it was naturally anti-bacterial, to help with the health and smell of feet, and thick, so that it keeps feet warm during the colder months. With every pair of socks your purchase, a Stand4 pair is donated to a person in need.
